

## **Track Daze Events**

So you're a keen driver and you want to see what you and your car can do?  
Come along to an event with Track Daze.

Time Attack track days are held at the Midvale Speed Dome.

The Speed Dome is a short course, so it suits quick accelerating and good handling cars, but there's a decent straight so your fast car can stretch it's legs a bit.

Events are an Autokhana/Superkhana/Time Attack style event, which essentially means driving really fast around a series of tight corners and short straights against the clock.

Spots are allocated on a first come, first served basis. The quicker you pay, the quicker you secure your spot.

You will need your own, or access to the following things;

- > Licenced & roadworthy car
- > Helmet
- > Long sleeve shirt and pants (cotton is best)
- > Closed in shoes
- > Valid Australian Driver's Licence & AASA Club Licence (L2S CAMS licence is acceptable)

Your car will be scrutineered before you are allowed to drive it on the track.  
Basically, make sure the following things are done;

- > Battery is secure
- > Seatbelts lock under tension
- > Tyres are not completely bald
- > Loose objects are removed from cabin
- > Your car is not falling apart
- > Your car is not leaking vital fluids

Cost will vary per event but the payment must be paid BEFORE the day of the event.

You will need to bring your own;

- > Seats/blankets/cushions to sit on during the day.
- > Sunscreen, just in case
- > Insect repellent, just in case.
- > Don't forget your tools, and spares just in case!

It's always good fun, and it's mostly at slower speeds, so drive at the pace that you're most comfortable with. Your times will improve the more you drive. There's a chance of some professional instruction on the day too.

The money is NON-REFUNDABLE so if you can't make it on the day, find someone else to take your place.

Make sure your car is reliable, and will last the whole day. The price is the same whether you drive for 1 run or 12.

You may drive someone else's car (with their permission of course!), but that car will need to be scrutineered also if it hasn't been already.

Lastly, the track is for everyone who is driving on the day. Each run takes between 40 seconds and 1 minute 30 seconds depending on the track's layout.

Don't dawdle, remember who you're after in the running order so that you're ready to go when it's your turn to race.

If you're deemed to be unsafe on the track, you get 1 warning only. After that, no more driving for you.

Spectators are most welcome, but will be confined to certain areas of the venue for their safety.

Feel free to contact me with any questions that are not answered above ^^
